Story about us

Ujjain Design was established on 2075 BS by a group of Architects and Civil engineers, Surveyor and Management experts with an objective to aim of bringing forth creative yet practical solutions to the civil engineering, architectural, and planning scene. Ujjain is a partnership organization, owned and managed by its key professionals. It is registered with small and cottage industries office, Nepal Government. Ujjain is supported by professional associates who are selected as the basis of their professional competence, experience and commitment to the philosophy and objectives of the group.

Vision

Ujjain Design is supported by professional associates who are selected as the basis of their professional competence, experience and commitment to the philosophy and objectives of the group

Our mission

Ujjain Design was established with the mission of providing architectural and consultancy services to individuals, institutional as well as governmental, semi-governmental and private sectors involving in the development activities of the country. Its primary aim is to provide innovative and creative solutions to problems relating to architecture and its allied fields.

Ujjain Design has the necessary organizational structure and support services, accounting and operational control with technical expertise to provide multi-disciplinary consultancy services.

Services

Ujjain Design Architects provides comprehensive professional architectural, engineering, and interior design solutions to clients seeking responsive and reliable planning and design services, as well as specialized expertise. We understand that great design is only one component of a project's success and strive to deliver high-quality, value-based, and timely service for projects both large and small. Our architects, engineers, interior designers, and other professionals collaborate within a unified, multi-disciplinary studio setting. This approach, facilitated by state-of-the-art building information modeling (BIM) technology, results in integrated designs tailored to our clients' needs and priorities.

Designing Solutions

We approach every challenge with vigorous creativity and a penchant for problem solving. Working in an interdisciplinary structure across multiple studios, we believe the best results come from an ensemble cast with an amalgam of skill sets and diverse perspectives

Building Trust

At the end of the day, it's about relationships. We can measure our success by square footage, number of awards, or industry rankings, but what matters the most is knowing that we can rely on each other and our clients can rely us. Whether we've served a client for decades or we're forging the relationship anew, our commitment to quality is steadfast.

Why choose us

The firm presently boasts of its experienced members of hard working quality, necessary to boost up the firm to achieve its goals and objective in a comprehensive manner and to explore greater heights. The status of the firm is further enhanced due to the presence of outside assistance of some reputed organizations and persons who are related to the Consultancy and are the strength to offer our services as complement to the rapid growth of the country's changing infrastructure and its development.

Ujjain Design has adequate technical and administrative support staff, and the office is well equipped with modern facilities and equipment.

Company information our mission is to collaborate to create places, not just buildings, and to transcend the standardized typologies and preset criteria of superficial, commercial architecture. We understand that good design not only creates beautiful spatial experiences but also enhances modern living, a vision our firm
